

Christina Tsai

Vice President, Global Sealing and Gaskets

Tenneco Powertrain

Christina Tsai is Vice President, Global Sealing and Gaskets for Tenneco's Powertrain division, responsible for overall business operations for the sealing and gaskets product line.

During her 17-year tenure with Federal-Mogul Powertrain, Tsai held various positions within the company, including Business Director, China, Sealing and Gaskets; Business Director, China, Systems Protection; and Plant Manager, Nanchang, China. She began her career as a Technical Service Engineer within the Systems Protection product line.

Tsai earned a bachelor's degree in chemical engineering, a bachelor's degree in economics and a master's degree in biotechnology from the University of Pennsylvania.
