

Olaf Weidlich

Senior Vice President and General Manager

Global Bearings

Tenneco Powertrain

Olaf Weidlich is Senior Vice President and General Manager, Global Bearings for Tenneco's Powertrain Division, responsible for the oversight of business operations for the bearings product line.

Previously, Weidlich served as Director and General Manager for the Valve Seats and Guides business. He began his career with Federal-Mogul as Director, Sales and Engineering, Valve Seats and Guides.

Prior to joining Federal-Mogul, Weidlich served as a Customer Director at Kautex Textron in Germany. Before that, he served in various engineering and sales functions at Valeo and BASF.

Weidlich earned a degree in mechanical engineering from The Technical University of Hannover, Hannover, Germany.
