

Sagar Hemade

Vice President, Global Commercial Truck
and Off-Highway

Vice President and General Manager, India

Tenneco Clean Air

Sagar Hemade is vice president, global commercial truck and off-highway (CTOH), responsible for the profitable growth and operational performance of Tenneco's Clean Air business in this important market segment. Additionally, Hemade leads the growing Clean Air division's business in India.

Hemade has spent more than 20 years in various leadership positions with Tenneco; most recently as vice president and general manager, Tenneco India. In this role, he managed all aspects of the company's Clean Air and Ride Performance business there. During this time, he achieved year-over-year growth of 50 percent in the region and has helped to develop and execute the strategy to address BSVI regulations for Tenneco's Clean Air business in both the light vehicle and CTOH segments.

Prior to that, Hemade was a plant manager and operations director and also worked in engineering and program management, supporting Tenneco's emissions control business in India. He began his career in production and product engineering for various automotive component companies in India.

Hemade earned a bachelor's degree in production engineering from Walchand Institute of Technology, Solapur, India as well as a joint MBA from Washington University's Olin Business School, St. Louis and IIT, Mumbai.
