

Santino Lammond

Vice President and General Manager

Global Valve Systems

Tenneco Powertrain

Santino Lammond is Vice President and General Manager, Global Valve Systems for Tenneco's Powertrain division, responsible for the overall strategic growth and profitability of Global Valvetrain and Valve Seats and Guides.

A 30-year veteran of the company, Lammond, has held various leadership positions during his time. Most recently he served as Vice President and General Manager, Valve Seats and Guides. Before that, he held a number of leadership positions including Plant Manager roles in Kunsziget, Hungary; Chivasso, Italy; Chapel-en-le-Frith, UK; and Coventry, UK. He was later promoted to Director and General Manager, Valve Seats and Guides.

Lammond earned a bachelor's degree in manufacturing, management and technology and a master's degree in business administration, both from Buckinghamshire Chilterns University College in Buckinghamshire, UK.
